LOCAL AND GENERAL.

Mr E. G. Gresham, dentist, will be in Warkworth from Friday morning of this week until Tuesday evening of next week.

A case to recover damages through fire spreading was heard by Mr Page S. M. at Whangarei last Wednesday. The report in the Northern Advocate states; Henry James Babe a Waikiekie settler, sued H. and James Dingle, neighbouring settlers for £187. There was great variance between the valuers estimates of the area burnt and the damage done. The valuer for the plaintiff gave the area at 200 acres. and also stated in reply to the question "Is it a benefit to have a good fire to burn off rubbish?" "No not on sandstone land." The valuer for the defendants gave his estimate of the area burnt as 10 acres. Both adhered to their estimates so the magistrate decided to go and see for himself. The result is not yet known.

The sale of a portion of Mr G. H. Phillip's property opposite Follett's Helensville, Waiwera and Rodney bakery, in Warkworth Main Street, is reported. The Co-Operative Company is the purchaser.

The master of the seew Nor' West reports a big boulder in the recently dredged berth in front of the Warkworth wharf.

Mr T. J. Macfarlane is shortly to leave Warkworth to take up a position in a butchery business at Whangarei.

It is intended by Mr Thomson, the County chairman, to proceed with the loan proposal to borrow £1,100 for two bridges at Kaipara Flats and forming and metalling on the Kaipara Flats and Station Hill roads. The first step is the preparation of the special roll. When word is to hand from the Valuation Department of the divisions in some of the ratepayers valuation the advertisement of the deposit of the roll will appear.

The regulation restricting people travelling from some of the Northern districts has created some concern amongst the members of the Whangarei White Horse Cup team. It was stated to be probable that the operation would be deferred until the team was leaving. Should the Rodney team defeat the Whangarei representatives, they want to do it on their own, and not with such an irritating ally as vac-

An exchange suggests that a few illustrations throughout Hansard would make it more popular. An excellent suggestion. An official photographer appointed by the Public Service Commissioner, so as to be free from political control, with power to snap anything of interest to the tax-payers, would be a great "take." If a snapshot were taken every half hour to show how many members were present and their attitudes, wouldn't it make the "House" sit up. And when any scene was in progress to have a cinematograph operator present, the subsequent reproduction of the making of history, would be om Parliament as nothing else seems to do. The dailies would then begin to find as much space for Parliamentary reports as they do for a passage of arms at the Auckland Charitable Aid Board meetings.

Masters of yachts and others are warned against anchoring in the vicinity of the line of cable between Strand Street, Tukapuna, in a direct line with Whanga Point on the Whangaparoa Peninsula. The prohibited area extends from the end of Takapuna wharf to something like a mile eastward. The strip converges to a point at the end of the Whangaparoa Peninsula.

Mr J. C. Cadman announces by advertisement in another column that he has added a watchmaking branch to his pharmacy business.

We are pleased to learn that Mr Shannon's eldest daughter, Nora, on account of whose illness he was called to Auckland last week (as mentioned in the County Council's report elsewhere) is progressing very satisfactorily towards recovery.

Dr. Menzies, public vaccinator for Mahurangi, wishes it known that there is no charge made by him for the operation of vaccination. He will visit the various district centres on receipt from the schoolmasters or postal officials of the numbers in their districts who wish to be vaccinated Anyone paying a fee does so at their

Kaipara Dairy Co.

The second annual meeting of the Kaipara Dairy Co., was held in the Foresters Hall, Helensville, on Wed-

nesday, 16th July. About 60 shareholders were present. The chairman (Mr C. Thomson), read the delegates were present at the meetthe report and balance sheet and moved its adoption. Mr C. Dibble Saturday night. It was decided to seconded, and in discussing the balance proceed with the selection, reserving sheet, he said he did not think it was quite right as it did not show the ex- akana teams the nominatory right of port season and the winter season separately, he thought as it cost more to produce butterfat in winter time more should be paid for it. A shareholder from Taranaki said that the J. Vipond, S. Civil, W. Andrews, J. directors were doing what all the Dairy Co's, were doing in Taranaki and he could not see any other way things could be carried on. It was also pointed out that if the expenses of factory running were taken note of, it might be that too much was being paid for the butterfat in winter time. The Chairman said that the state of the local market ruled the price paid in the off season. The report and balance sheet was adopted. No recommendation to the directors being made on the matter brought up by Mr. Dibble. On the motion of Mr H. Hooper the 5 per cent. interest on paid up capital and the $1\frac{3}{4}$ bonus on butterfat was authorised to be paid.

Mr McKenzie moved that the outof-pocket expenses of the directors be paid, carried. He also moved that the directors be paid £1 for each two day meeting they attended. After considerable discussion, adverse and otherwise, the motion was withdrawn on the suggestion of Mr McLeod.

Mr Jenkins thought the directors had managed so well that they deserved the shareholders best thanks, and he moved that £10 10s be paid to the Chairman and £2 2s to each other directors, making special mention of the time and trouble given to the affairs of the Company by the Chairman, seconded by Mr Hooper, and carried amidst applause.

Mr McLeod on behalf of the directors, thanked the shareholders for their vote and after consulting with his fellow directors announced that they had decided with the exception of the £10 10s vote to the Chairman, to divide the £21 between the Wellsford, Agricultural Societies.

The retiring directors, Messrs Grant, McLeod, Hands and Ross were elected without opposition. One nomination had been sent in, but was withdrawn on the morning of the annual meeting by wire. Mr H. White junr., was reappointed auditor.

Mr J. Hudson moved a hearty vote of thanks to the staff, which was carried by acclamation. Mr A. Gubb moved a hearty vote of thanks to the directors which was carried in the same manner.

Mr Hudson brought up the matter

of cow testing and spoke strongly in favour of a move being made in that direction. Mr J. M. Valentine, Government Dairy Instructor, was present and gave a lot of useful information on the subject, but no action was taken in the

Ball at Kaipara Flats.

matter by those present.

(Contributed).

On Wednesday evening last a return ball was given in lhe Ranfurly Hall by the ladies of the district to the bachelors, whose function had been held some few weeks previously. The weather overhead was fine, and the hall was crowded with an attendance of about 78 couples. Complete and excellent arrangements were made by the committee consisting of Mesdames Dill, Guy, Adolph, Kensington, Misses E. Vipond, I. Morrison, O. Thomson, and G. Hatton, Misses O. Thomson and E. Vipond acting as honorary secretaries as well as Mistresses of Ceremonies. The hall was profusely decorated and the floor in good condition. Hooper's band provided the music and the supper was all that could be desired. The following is a list of most of the fancy costumes worn, the ball having taken the form of a plain, fancy and domino mask one :-

Miss O. Thomson, Red Indian Squaw. Miss Alice Hughes, Red Indian Squaw. Miss E Vipond, Queen of Hearts. Miss N. Vipond, Queen of Diamonds. Miss D. Brott, Queen of Spades. Miss D. HOCKEY.

WHITE HORSE CUP.

The downpour on Saturday prevented the meeting of the A. and B. teams. Only one selector and some of ing of the Hockey Sub-Association on to the captains of the Valley and Matone man each. The following fourteen were selected, J. Matthews, H. Smith, E. Viall, J. Smith, H. Clayden, C. Wade, S. Morrison, J. Morrison, Morrison, M. Philips, and T. Davies. It had been intended to play in Warkworth's colours, but word was received that the team would have to adhere to same colours as last year-green and white. Mr French was appointed manager, Mr S. McPherson deputy

manager. This year's entries embrace six subassociations, viz, Rodney (defenders), Cambridge, Rotorua, Waipa, Whangarei, and Piako, and the matches will be continued until the ead of the week The following is the draw:—

First Round (Tuesday) : Cambridge v. Piako, Rotorua v. Rodney, Waipa v. Whangarei. Second Round (Wednesday): Cambridge v. Rotorua, Piako v. Whang-

arei, Waipa v. Rodney. Third Round (Thursday): Cambridge v. Rodney, Piako v. Waipa, Rotorua v. Whangarei.

v. Whangarei, Piako v Rodney, Rotorua v. Waipa. . Fifth Round (Saturday) : Cambridge v. Waipa, Piako v. Rotorua, Rodney

v. Whangarei.

Fourth Round (Friday); Cambridge

TUESDAY'S MATCHES.

RODNEY AND WHANGAREI SCORE WINS.

THE RODNEY GAME. (By wire from Auckland).

The First games in the Hockey Country week ended in wins for North Auckland, Rodney defeating Rotorua by 4 goals to 1, and Whangarei scored a victory over Waipa by the same margin. Rodney took the field somewhat downcast by the absence of several of the picked players, but resolved to respond to the call of Captain John Mor-

rison. Our cup defenders in the first game were—Goal, J. Linge; backs, J. Smith, E. Viall; halves, C. Cruickshank, C. Wade, S. Civil: forwards, S. Morrison, J. Morrison, J. Vipond, T. Davies, W. Andrews. Rodney's colours were green and white. Rotorua light blue. The game was played on the principal ground at Remuera with rain falling for two thirds of the time. The ground was softer than the game and both teams were soon well covered with Remuera soil. From bully off, Rodney started attacking, ending in a few minutes time by John | mariners they would prefer the water Morrison netting goal one. Andrews came through with a good run, Wick- the car by steamer. We still have ett, the Rotorua custodiau, conceding a corner hit. Another corner hit future, however, as is shown below. quicly followed, resulting in "bully By the same steamer was shipped. off" at quarter way. S. Morrison the boring plant which has been in got away but Holland saved. Selwyn operation at Pakiri, testing for coal was soon back again, and centreing, deposits. It is understood that the re-John took the shot which went wide | rults have proved disappointing, al-The Rotorua van soon got moving. Melville got possion and went right through, netting Rotorua's first and only goal. After interchanges, which never went beyond the backs, Rodney's van carried a sustained attack to the circle and a shot from Vipond found including Mr Shannon, county engineer the net. Rotorua gave a few flashes assembled on the 15th inst., and Mr the net. Rotorua gave a few flashes of play which sufficed to show our backs the need of preventing any development of their attack. Our forwards were pressing hard and Rotorua gave several corners, but that was not sufficient. The persistent attacks

ended by Selywn scoring the third goal and at that the score stood at half time. In the second half our two wing forwards showed to advantage though Stewart and Holland did all they could to block Rodneys repeated attacks. An opportunity came John Morison's way, but the shot went wide. Soon after, Davies put the ball in the net from at an angle, so the score stood 4, Rotorua 1, and the game ended without further change. Andrews received a nasty bump in the second half, but he will be playing to-day. Linge, as goal-keeper, used his feet on two out of the four occasions he had a chance to join in. Better weather conditions will improve matters for to-day's match.

Peoples' Popular Pictures.

Those who braved the weather on Monday night to see the Peoples Pictures postponed from Saturday were not disappointed in their expectations of a good show.

The big detective picture "The Ressurection of Nick Winter" gripped the spectators from the start, exciting incidents followed fast one after an other, and the chase of the criminals by the police on motors and on bicycles and the fight when brought to bay and the final arrest were highly sensational.

The dramas " The cross roads " and "The loafer's mother" were both above the average, while "The wooing of Handsome Dan " showing how Dan became engaged to six girls at once and their revenge, and "When Father had his way " were two amusing comedies. A Max Linder comic play "On the Honeymoon" created

roars of laughter. The pictures were well projected, the show proceeding without a hitch Rugby Players get plenty of hard knocks, and plenty of bruises NAZOL OINTMENT on aides them to get rid of the bruises quickly. I has great southing and healing properties. viding a good class of pictures.

Garden Notes.

Temporary hot beds, for raising of early tomatoes, marrows, cucumbers, melous and pumpkins, may be made with a couple of boxes placed one on the other, the bottom box is used to produce the necessary heat by means of an ordinary parafin lamp. The top box must be fitted with a well perforated bottom to allow the heat to pass readily through and contain about 6 or 8 inches of cocoanut fibre, cork dust or saw dust, this substance must be kept moist, the pots or boxes plunged in fibre the whole covered with glass or scrim, in the case of glass allow plenty of ventilation, and arrange the depth of box so as to keep the plants as near the surface as possible. Harden off by removing the cover in suitable weather. (A piece of tin should be suspended over lamp to

spread the heat.) Hot beds with cow manure are very eliable and steady never too fierce. Gather the manure while in a dry state break it up well and tread it firmly. It will need to be 18 inches deep at least. Cover with 6 inches fine soil, in this you may grow raddish, lettuce, cucumbers, marrows or melons provided always you have a frame to cover the bed, and be careful to ventilate on mild sunny days.

In selecting your flower seeds include a few of the easy growing climbers. They are very useful for covering fences, walls and hiding unsightly places :- convolvulus major, coboea scandens, tropoeolum canarien. sis, and many others are very useful for this purpose while for permanent positions. Ampelopsis veitchii clematis in variety or passion fruit may be planted. We have only mentioned a few well-known varieties, very many other beautiful climbers may be selected from any seedsman's catalogue. For the bushhouse, medecia asparagoides (smilax), is one of the best as it can be trained into graceful festoons and is most useful for hanging baskets. The seed must be soaked and the soil kept fairly warm. In the kitchen garden sow maincrop of onions (look up old notes on cultivation.) Peas for succession, radish, lettuce, cabbage and cauliflower.

Old Ebony

Leigh.

(Own Correspondent.)

Winter is not an ideal season for motoring over country roads in the Roadless North," yet so mild has the season been so far that the first motor car to venture in these parts arrived on the 1st of this month. Warkworth was reached from Auckland without mishap, but equine assistance was necessitated before Matakana was 'made." Why are negotiable clay roads converted into miry seas by persistent grading in autumn? The tourists finally made port at Leigh, and decided that if they must be "neat," not mixed, so returned with hopes of metalled roads in the near

By the same steamer was shipped though coal is certainly present.

A meeting of ratepayers was called

for at Leigh by Mr J. C. Wyatt, Coun-

cil riding member, to discuss certain loan proposals. About forty persons, C. S. Clarke presided. Mr Wyatt said that Government had granted £2000 for road metalling, on the proviso that the ratepayers find an equal sum for expenditure. If the Advances Department will loan the £2000 required for the ratepayers portion the Government by the Act of last session will help to pay interest on that loan, to the extent of 1 per cent. for ten years, and 1 per cent. for a further five years. He pointed out that the sum raised would suffice for metalling the road where required from the bridge at Darroch's ship yard in Whangateau, through Leigh to Pakiri, allowing for certain other improve-ments by the way, and the payment of loan charges would be so arranged that the ratepayers would not be called on to pay more for the privelege of a metalled road. The proposal was unanamously carried that a poll be taken to authorise the flotation of the £2000 loan. Mr Wyatt then referred to the Leigh cemetery, stating that the Council was willing that a local committee be elected to take charge under the Council's authority. It was proposed that the committee be of five members, and the following were elected:—Messrs C. S. Clarke, C. Dunning, A. Haskell, A. Matheson and J. C. Wyatt. No term of office being stipulated it is understood that these gentlemen will retain their responsibility during the pleasure of the Council.

MUMPS-A good cure. Take a few drops of NAZOL on loaf suger and allow the sugar to dissolve slowly between the cheek and gums—this to be repeated every hour. Also bathe the glands of the neck with hot water and soap and then rub in freely NAZOL OINTMENT and wrap the neck in flannel.

BRONCHITIS is more quickly cured is NAZOL OINTMENT is rubbed well into the chest and back, between the shoulders, and chest and back, between the shoulders, and NAZOL taken at the same time. This has been

Got wet through! Wore damp boots! Cold settling on my chest, feel miscrable! This is the experience of many. There is nothing that gives more speedy relief than full doses of NAZOL." It is quite magical in its effect. effect. Sufferers from Bronchiti have secured prompt and permanent relief by using "Na

Wonder tulcures have been effected by "Nazol" when other remodies have failed."
